- Aqsa Shabbir
- Fashion Ecommerce Website

Home Page: A visually appealing landing page featuring featured products, promotions, and brand highlights to captivate visitors' attention and encourage exploration.

Shop Page: A comprehensive catalog of fashion items categorized by type, allowing users to browse and filter products based on their preferences and needs.

Product Pages: Detailed product pages showcasing high-quality images, descriptions, pricing, and available sizes/colors to facilitate informed purchase decisions.

Shopping Cart: An interactive shopping cart functionality enabling users to add/remove items, adjust quantities, and review their selections before proceeding to checkout.

Responsive Design: Implementation of responsive design principles to ensure compatibility and optimal viewing experience across devices and screen sizes.

Contact Page: A dedicated contact page with a form or contact information to facilitate communication between customers and the retailer for inquiries, feedback, or support.

Blog Page: Articles related to modest fashion trailblazers, providing valuable content and engaging users with informative posts.

System Requirements:

- Compatible web browser (e.g., Google Chrome, Mozilla Firefox, Safari)
- Internet connection
